*Superintendent, J. P. FULLER**To the Citizens of the Town of Washington:*

We herewith respectfully present our annual report of the schools of the town of Washington.

During the past municipal year the elementary schools have been maintained thirty weeks but beginning with the next municipal year all elementary schools must be maintained thirty-two weeks to answer a new school law beginning July 1, 1929.

The Mountain and Hodge schools have been reshingled and new curtains have been furnished to the high school building. Minor repairs have been made on all the buildings such as new locks put on doors, glass put in, etc.

All elementary schools need different heating and ventilating facilities and we hope that this change can be brought about next year.

The high school building should be wired for electricity. It is not a luxury but a necessity to light the building on dark days and for laboratory purposes.

Education today is not static but instead we are living in a time of continual changes and we want the education of our youth to be on a par with that of other towns throughout the state.

We have strived to put the proper textbooks in the schools so as to improve the standards of our schools.

In conclusion we wish to state that we appreciate the untiring efforts on the part of our teachers, the co-operation of the parents and other citizens of the town.

The circulation of books in the library during the past year has been about 2,475, an increase of about 75 over last year's circulation.

New books have been purchased by the trustees, both fiction and non-fiction. During the year thirty-eight (38) books have also been presented to the library by the following persons: Mrs. Leona Sherman, W. C. Lessner, Jerusha Sargent, Martha Johnston, Mrs. Jean Atkins, State of Maine, Mr. and Mrs. Earl Ripley and Mahlon Turner. Sidney Humes, Jr., has also loaned the library several books.

The usual amount of extension work has been carried on by Mrs. Amelia Babb and Mrs. Augusta Creamer in their respective localities. The high school students have also patronized the library for reference work and we feel the need of new up-to-date reference books in order to keep along with the ever changing trend of modern times.

A new movable bookcase has been added to the library equipment, thus eliminating the necessity of stacking books on the counter for lack of shelf room.

The library is fast outgrowing its present quarters and some provision will need to be made for it in the near future. The librarian, Mr. Linscott, has been very fortunate in securing the services of Miss Marion Mitchell as assistant during the greater part of the year and her work in arranging and classifying the books is to be commended.

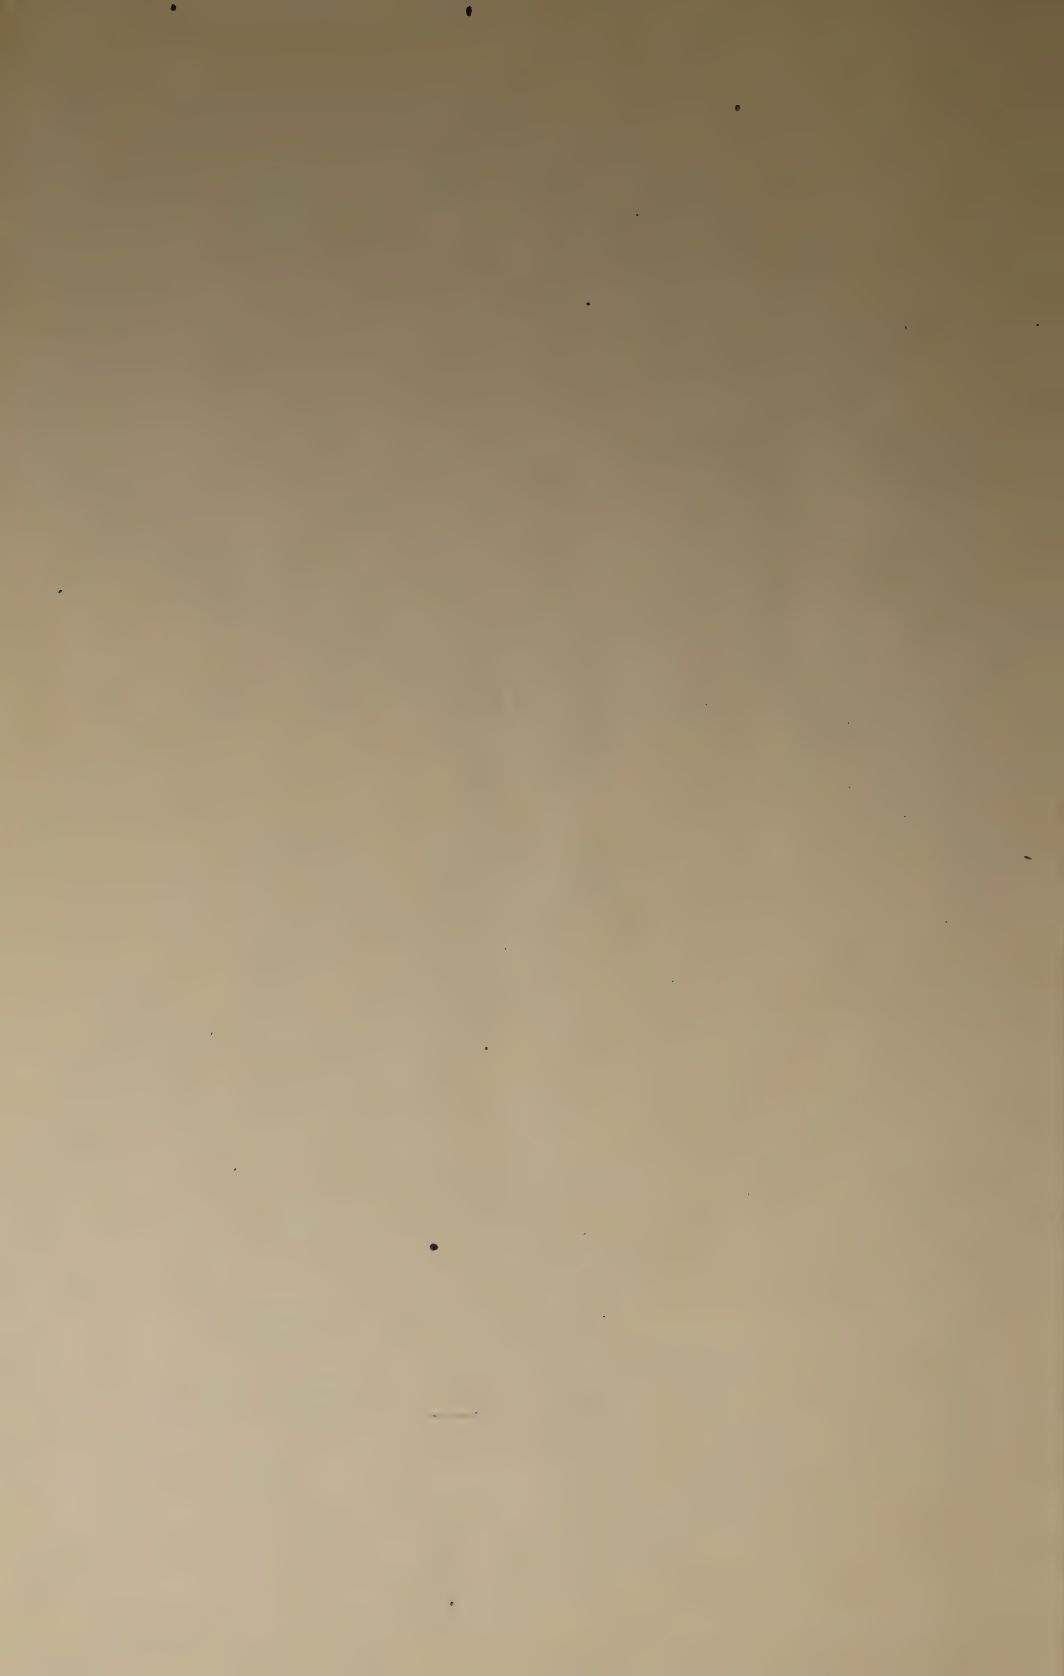

We thank the people for support and cooperation given the library during the past year.

Respectfully submitted,

School Report

Committee

H. J. MOORE

MRS. B. M. JOHNSTON

Superintendent, J. P. FULLER

To the Citizens of the Town of Washington:

We herewith respectfully present our annual report of the schools of the town of Washington.

During the past municipal year the elementary schools have been maintained thirty-two weeks to answer a new school law which I mentioned in my last year's report, and everything has been figured on the basis of thirty-two weeks so as to give the citizens of the town an idea of the cost of maintaining the schools for a thirty-two week year.

The building at the village has been painted on the inside, new coat and hat hangers put up and the Branch schoolhouse has had a new foundation put under it. Minor repairs have been made on all the buildings and I think that we should all give Mr. Moore a vote of appreciation for his keen interest in seeing that our school buildings are in proper repair.

I wish to bring to your attention again that we are not conforming with the laws of this State in regard to heating and ventilation. The heating is bad but the ventilation is deplorable.

During the past year and a half I have replaced several of the antique and worn out books with new and more modern volumes.

To the parents:

I do heartily solicit a frequent visit from each and every one of you to the school in your community so that you may have a better understanding as to what we are trying to inculcate, and bring about a greater cooperation between parents, teachers, and pupils.

In conclusion I wish to state that I appreciate the untiring efforts on the part of our teachers, the hearty cooperation of the school committee, parents, and other citizens of the town.

The circulation of books in the library during the year has been 2557, an increase of about 100 over the circulation of 1929.

New books, both fiction and non-fiction, have been purchased by the trustees. The requirement of the State that the stipend money be used to purchase standard non-fiction books has been carefully adhered to and as a result there has been much added of a heavier type of reading than heretofore.

There has been presented to the library during the year about 70 books by the following persons: Mrs. Leona Sherman, Mahlon Turner, Sidney Humes, Huldah Flanders, Mr. Sawyer, Mary Warren and the State.

The amount of extension work has not been as great as in former years but use of the library for reference work by students of grade and high schools has been quite noticeable, and we feel that a reading table would be much appreciated by patrons.

Again we call the attention of the townspeople to the necessity of enlarged quarters, also having been obliged to raise the librarian's salary. The town needs to make a larger appropriation for upkeep.

We thank the townspeople for support and cooperation given during the past year.

Respectfully submitted,

MRS. AMELIA BABB
MRS. CLARA S. OVERLOCK
MRS. INEZ CUNNINGHAM
MRS. ELLA M. BRANN
MISS LURLIE DAVIS
